REPLY TO  
ATTN OF: CINC

SUBJECT: (TS) Tanker Support for CIA

\*USAF Declass/Release Instructions On File\*

TO: CSAF

1. The Strategic Air Command will support the CIA A-12 Program utilizing the 93 AREFS at Castle AFB. (TS)
2. Present tanker support requirements for the CIA program will degrade the SAC EWO Tanker Force by one 15 UEE KC-135A Squadron. Complete degradation does not occur until the 64 SIOP becomes effective. Future tanker support for CIA and SAC A-12 requirements will require a 20 UEE KC-135 squadron. (TS)
3. Flexibility in refueling tactics, off load capability and operating locations requires consideration be given to the utilizing of KC-135B for A-12 support. (TS)
4. Immediate buying action for 20 additional KC-135B aircraft should be started. These aircraft would be utilized in supporting the national reconnaissance effort. This buy would allow the 15 KC-135A aircraft presently committed to the A-12 program to be returned to their present EWO commitments. (TS)
